the Inam Lands Regn
grant of Rs. 39-12-0.

3. The grounds urged by ~~the~~ + P.No. 1.
the ~~Petitioner~~ Petitioner
in support of his prayer
are: —

(1) That the Inams in question,
the Bejjavari Jodi which had
been entered Takkavi in
the Inamti accounts, were
measured once in Nanda-
(1892-1833)
-ru, 62 years ago, and again
Some time Subsequent to
Subhakrithu (1842-43) and
although Some excess was
then discovered, it was not
taken into account & the
Lands were treated as Inam.
(2) That at the time of the
grant of the Inam Lands,
their Surrounding numbers
were all old cultivated
holdings & were not under
are
cultivation. That being so,
it is apparent that there
was no room for encroachment.
Further, the Lands were all

conferred as Inam at the Inam Settlement.

(3) Not. formerly, the Beja-vari of a land was determined according to the quantity of the grain that could be sown in it. It may be that there is difference between the old measurement of the yard & Vandram and the Survey measurement, & it is perhaps due to the difference between the old & the present measure of a yard.

(4) The boundaries of the Inam land in the Pada-nagere village remain as originally fixed, & Nos. 80, 81 and 84 can be treated as Kulkat, is not apparent.

(5) Not. if, in addition to the quit rent and the cess amounting to Rs. 9, the Kulkat assessment is also to be paid,

*On one side by an old cart track, on two sides by the boundary lines of other Inam villages & on the 4th side by "Kallu Maraki".

Local irrigation cess & Charged in the Survey assessment.

the annual payment will come to about Rs. 130/-, & the lands will be no better than Kandayam lands; & thus the original object of the Enam will be frustrated.

(6) ~~under the circs~~ For the foregoing reasons, the Cowl of Nilakal may be cancelled, all the Lands being treated as Inam, under the orders of the Devan, recorded in connection with Subject No 130 of the D. A. Feudatory Mags of 1891.

Subject No 130 is as follows:—

"Summary of discussion] In case of minor Inam lands, whose boundaries are well defined, ~~the Survey~~, the Survey Dept have found some excess area & charged the same with assessment, which should be cancelled & the excess fixed on the old Basis & the irrigation rate charged on such excess found by the Survey Dept should also be remitted

Diversity. Stone pillars are not reliable boundary marks as they can be so easily shifted. Prove the old boundaries in any individual case without fail and we shall not look the Excess in area now found on measurement.

4. The revised rules for dealing with excess in Inam Lands in Settled Taluks are published under G.O. No. 5046-54 Rev. dt. 3.12.59, Cir. 128 a copy of which is submitted for reference.

5. It is not known whether in this case the boundaries of the Inam Land as originally defined, were verified and found correct at the time ~~of the~~ of their measurement by the Survey Dept. The Inam Inspt. merely states that the Inam land was allocated according to the land. Field Survey Records forwarded.
